**"YOUR ONE STOP SHOP FOR OLD VW PARTS"**

**CARPET WARS**

We're sure that you, the customer, have noticed a number of carpet sets on the market, some sporting some very inexpensive prices! If the price seems too good to be true, then rest assured, it probably is. With our synthetic carpet set costing four times as much, you can understand why it seems like almost everyday we receive phone calls asking "What's the diff?"

First of all, have you ever wondered how companies can sell one carpet set that will fit 10 different years? Actually the answer is simple, you cut the carpet to fit. It does not take a well trained eye to spot this quality of

carpet, the carpet material is cheap, the edge binding is made of yarn and nothing fits like it's supposed to. Sorry folks, but it's the same old story

"you get what you pay for"

At Wolfsburg West we use eight different patterns to cover the years through 1967. All of our carpets are sewn using european carpet (not Detroit quality). All pieces are bound as per factory specs using original cotton twill non-fade binding. All the correct holes have grommets and are bound as did the factory. Carpet is available in many different colors in original square weave and synthetic material. Sample cards are available upon request for \$3.00.

## NEW PRODUCTS

### Coming this month!

Front bus nose clip  
Upper steering column bearing kit, 1962-1967  
Bus sun visors, Ivory  
Bus central floor sections  
Radio knobs, Ivory, German radios  
Brake lens, Bus, to 1957  
Bus shift rods, bushings and steel rod coupler  
Rear luggage sound deadner (good VW style)  
Ash tray light, all years  
Italian front 58-63 blinker lenses  
Bus rear torsion bar rubber grommets  
Bus front torsion arm rubber grommets  
Battery hold down strap, 56-66

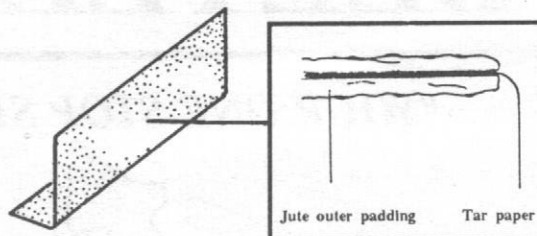

### Steering column bearing kit

Does your steering wheel have excessive up and down play? If so, your steering wheel bearing could be worn. This kit includes all of the items illustrated and fits 1962-1967. \$7.50

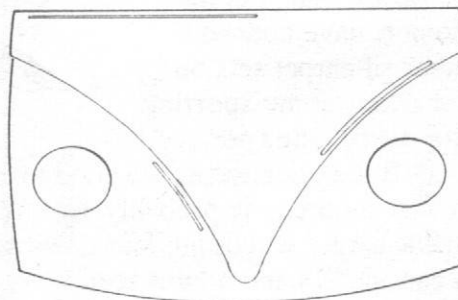

### Luggage Racks

If you travel a lot in your bug, and you (like everyone else) find that the stock luggage space allotted isn't quite enough, then you're in the market for a luggage rack. We've got them for the frequent traveler as well as the occasional tourist. Top mount luggage roof racks are \$240.00, and the rear mount engine luggage racks are \$125.00. These are made from a light steel, and sport the classic wood slats.

### Direct From The VW Factory, Rear Luggage Padding/Sound Deadner.

A must when installing a carpet set in your car! So what makes this different than any generic carpet padding you may ask? This 3/4 inch dense jute padding has a tar paper center specifically for sound deadening. We have installed these here at the shop and were amazed at how much quieter the car was inside. \$28.00

### Bus nose sheet metal sections

These sections do not include the windshield surrounds, and are supplied without the holes for the front VW emblem or front blinker assembly. This fits through 1967 and are available only through Wolfsburg West for \$120.00

## SPECIAL SAVINGS

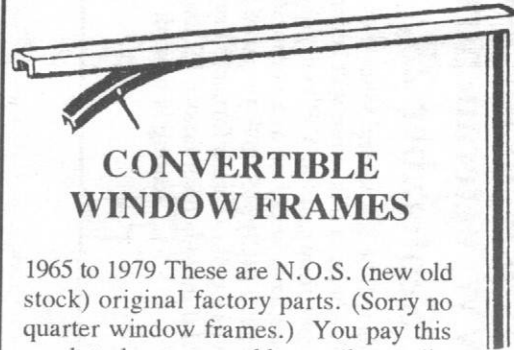

### BUMMER BUMPER NEWS

#### A Few Notes About Bumpers;

Ask anybody that has restored a VW about their experiences with brazilian bumpers and your sure to hear an agonizing story or two. Unfortunately, most of the bumpers on the market today rate maybe a D-. At Wolfsburg West we have struggled to supply the best quality bumper parts possible. For this reason we have been unable to come up with an acceptable quality complete bumper for the 1967 and earlier beetle. You ask what can be done? We suggest that you have your old overrider tubes (these are the 1 1/2 inch tubes that run horizontally across the top of the bumper) re-chromed. We can supply the rest of the parts in a quality of C+. We also have complete european delivery bumpers in a quality level of B-.

#### As For The Bus

At one time we were able to get from VW Brazil an excellent quality bus bumper and its related parts. Unfortunately, those days are gone folks. We are unable to find a supplier in Brazil and the cost of what is still in production from the factory has gone beyond belief. We suggest a bumper shop on repairing what you have, we have seen some pretty good work performed in this area.

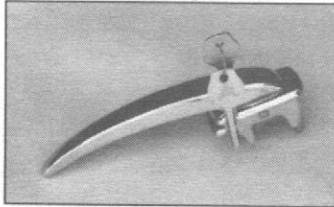

#### CONVERTIBLE WINDOW FRAMES

1965 to 1979 These are N.O.S. (new old stock) original factory parts. (Sorry no quarter window frames.) You pay this much to have your old ones chromed!

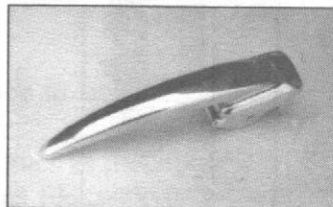

**Left or Right \$25.00 ea.**

We also stock the seal for these frames N.O.S. with the proper molded corners \$16.00 set of four.

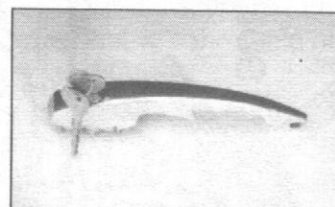

#### Door Handles, to 1955

These are the real thing! Original German manufacture, not brazilian! Very limited supply. Left side \$55.00 Right side \$45.00

#### Beetle door handle 1956-1959

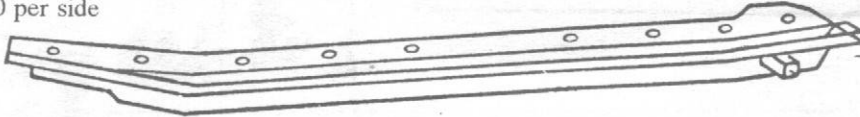

Probably the most sought after VW door handle. This was never reproduced and is only available in German. Left side \$75.00 Right side \$55.00.

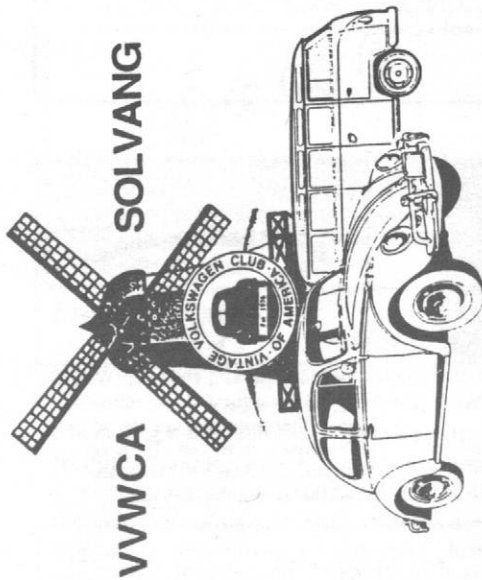

**Bug door handle 1968 on.** We purchased these for an incredible low price; therefore, we are able to pass the savings on to you. These are original German \$20.00 ea. and \$40.00 in matched key sets.

#### CONVERTIBLE FRAME STRENGTHENERS

These are an excellent reproduction. Made from 14 gauge steel in Europe, these strengtheners are made as the originals and include a 2" flap between the body and the pan. This makes for easier installation. \$125.00 per side

## Join us at the 1st annual VW Veteranentreffen on September 28, 29, 30.

This will be a weekend vintage event in Solvang. We believe this event will become one of the premier shows in the VW vintage world and to help out we have joined on as a corporate sponsor. You can call (415) 965-2599 for more information or give us a call. Late information says that you need to send in your reservations for the banquet early as seating is limited!
